

((IN/Clojure))

IN/Clojure 2019 is the third edition of Asia's very first Clojure conference, and is scheduled to be held in **Bengaluru, India in January, 2019**.

As a functional language that is well-suited to building reliable, scalable applications, Clojure has garnered a lot of interest from companies looking to improve the efficiency and performance characteristics of their applications.

Companies in India have been putting Clojure and Clojurescript into production for years now: Go-Jek, Helpshift, Nilenso, Concur, Quintype, Webengage, and Formcept, to name a few. We're hoping that their stories will inspire and drive further adoption in India.

The first two editions of the conference have served as a platform to kickstart a series of Clojure workshops and meet-ups across the country. It has also helped attendees make a strong case for Clojure adoption in their companies. We believe that this edition of the conference, like previous editions will foster the growing Clojure community in Asia.

We expect to have between 120 to 150 attendees from India and abroad, with a mix of experienced Clojure programmers and enthusiasts.

We are looking for your help with nurturing and growing the community by sponsoring IN/Clojure.

We look forward to talk proposals from Clojure programmers (both beginners and experts) in your organisation, and to meeting you in person at the event.

Sponsorship slabs for IN/Clojure 2019:

	Platinum	Gold	Silver
Amount	₹ 4,00,000 (USD 6000)	₹ 2,00,000 (USD 3000)	₹ 1,00,000 (USD 1500)
